\$3 per day each, with an auditional above ance of 25 cents per day for meals, was rescinded—a case of "the ruling passion strong in death." Then Mr. Maxwell moved that each officer of election be paid \$3, and that persons furnishing meals be paid as charged. This was rejected af-ter a good deal of talk, and the Board re-re-scinded and adopted the original order seath.

The Committee on Finance recom-mended the payment of bills aggregating \$159 58, and reported the expenses of the late election as \$473.50. These were or-

The old matter of the claim of John Burns sgainst the county in connection with the work done by him on the P. "THE MINUTE MEN."

A Fleture of the "Times, That Tried Men's Souls."

James A. Herne's "Hearts of Oak" was written by Stave Belasco. Who wrote his new play, "The Minut; Men of '76," has looked forward to. incidents are natural and nicely incorporated in the web of the play, and the whole presents a picture of the early days of America's struggle for independence which is true to life. The play is marred by little faults and some of the actors are stiff and disagreeable at the lold Grant House property. A leak times, but all in all few more pleasing performances have been seen in the city. The scenery is a special feature, being picture quand and propriate. The house was well filled upstairs, but only half full down. Pethaps the best idea of the impression produced by the play is the statement made on all sides that were the performance to be repeated to night the house would not hold the people.

The News-Letter of yesterday says:

"The trades seembly met at Bellaire yesterday and the rattling report from the committee on the hoycott enthused the members to an unusual degree. For the first time figures were read concerning the circutation of the rat papers. In Wheeling it was shown that but 658 rat papers were circuleted, which divided by two, would give but 320 to each of the rat papers. At Martin's Ferry the list was out down from 113 to about 18; at Steuben. While, Wellsburg, Bridgeport, Bellaire, Benwood and other points the most encouraging reports were received. Another week of the same vigilance (and increased action is assured from different sections) and the rat papers will only circulate among deadheads and exclanges. Let the good work continue. He relates in very dramatic form a story of deep human interest and interperses it with bits of English low life that reminds the observer of Dickens. Considering the purpose Mr. Buchanan set out to achieve —that of providing a piece full of moving incident, such as appeals to the popular sympathies—it must be send that he has anceeded admirably.
